PROFILE

Software engineer with 5 years of experience, specialised in IBM Maximo consulting (7.6, MAS 8 and MAS 9) in the banking and railway sectors. My years as a dive instructor have given me a hybrid profile across the functional and the technical: I know how to listen to the person in front of me and turn what they need into solutions that work. I like to stay current, research the latest in artificial intelligence and try it out in my own projects.

EXPERIENCE

IBM Maximo Consultant
2026 – present

Kyndryl · banking sector · Maximo 7.6

- Support and evolution of IBM Maximo 7.6 in a business-critical banking environment: end-to-end incident, change and service-request management, with root-cause analysis and follow-up to closure.
- Configuration and maintenance of the Work Orders, Assets, Inventory and Service Requests modules to meet business needs.
- Automation scripts for validations and business logic; screen changes with Application Designer and data-model changes with Database Configuration.
- Design and maintenance of escalations and workflows to automate approvals, notifications and status changes.
- Maintenance of integrations with other client systems and business reporting.
- Python and SQL automation of recurring operational tasks, with documented and auditable procedures.

IBM Maximo Consultant
2023 – 2026

Minsait (Indra) · railway project · MAS 8 and 9

- Technical and functional administration of IBM Maximo Application Suite 8 and 9 on a railway project: Work Orders, Assets, Inventory and Service Requests.
- Migration of a legacy Java system to Maximo: analysis of existing processes and adaptation of their functionality to the standard modules.
- Database migration from Oracle to DB2: data transformation and loading, and validation between source and target.
- Customisation with automation scripts, security, groups and access management, and BIRT reports.
- SQL (PL/SQL) optimisation and Python automation of deployments and migrations between environments, reducing errors in production releases.
- Direct client contact in Scrum: requirements gathering, estimation, follow-up and delivery with client and vendor teams.

IT Developer & Diving Instructor
2017 – present · part-time

Revolution Dive

- Website, online booking and payments, SEO, Google Ads and an AI chatbot.
- Group leadership and direct sales in Spanish and English.

PROJECTS

Autonomous video generation and publishing platform
Generates script, images, voice and edit with AI and publishes it automatically.
Python · LLMs · Image & voice · Google Cloud · Docker · Serverless

Multi-tenant SaaS ERP for dive centres
Bookings, customers and online payments, plus an AI chatbot on web and WhatsApp.
Vue 3 · Node.js · Express · PostgreSQL · Redsys · WhatsApp API · LLMs

Multi-agent AI system with human oversight
Agents that monitor, audit and develop daily, with human sign-off on sensitive actions.
Agents · LLMs · Orchestration · Human-in-the-loop · Git

Multilingual websites with online booking and payments
Sites in several languages with booking, online payments, SEO and Google Ads.
Vue · Next.js · Redsys · SEO · Google Ads

TECHNOLOGIES

IBM Maximo
Maximo 7.6 · MAS 8 · MAS 9 · Maximo Mobile · Work Orders · Assets · Inventory · Service Requests · Automation Scripts · Application Designer · Database Configuration · Escalations · Workflows · BIRT · Oracle → DB2

AI & LLMs
LLMs · Agents · RAG · Image & voice

Backend & data
Python · TypeScript · Node.js · SQL / PL-SQL · PostgreSQL · REST APIs

Cloud & operations
Google Cloud · Cloud Run · Firebase · Serverless · Docker · Git · Linux

Applications
Next.js · Vue · Redsys · SEO · Google Ads

EDUCATION

BSc Computer Engineering
Universitat Politècnica de València · 2017–2023

Erasmus · Computer Engineering
Oulu University of Applied Sciences (Finland) · 2021–2022

Sports Technician (vocational diploma)
Complejo Preuniversitario Mas Camarena · 2017–2018

Diving Instructor
Costa Blanca Dive · since 2017

LANGUAGES

Spanish · native
Valencian · C1
English · B2
